Did you know.....

- ✓ Music provides a creative outlet and a break from the routine and rigor of the traditional school day. Students in music are among the highest academic performers and still report less stress and tension than their non-musical counterparts.
- ✓ Through music, students become better people, as they develop self-discipline, confidence, commitment, responsibility, good decision making, and personal pride. They are able to do this with the support of peers in a safe and risk-free environment.
